1.Versioning Table

9.09.2021 – v.o.o.1 – created the user stories table with acceptance criteria.

2. User Stories

1. Table

In this table, story points are used to estimate the difficulty of implementing the respective user story, being an abstract measure of effort required to implement it.

“A story point is a number that tells the team about the difficulty level of a story.” (What is Story Point in Agile? How to Estimate a User Story?, n.d.)
